# Creating Hospitalist Teams Patient Lists

Continue this process for each patient that needs to be assigned to a team.

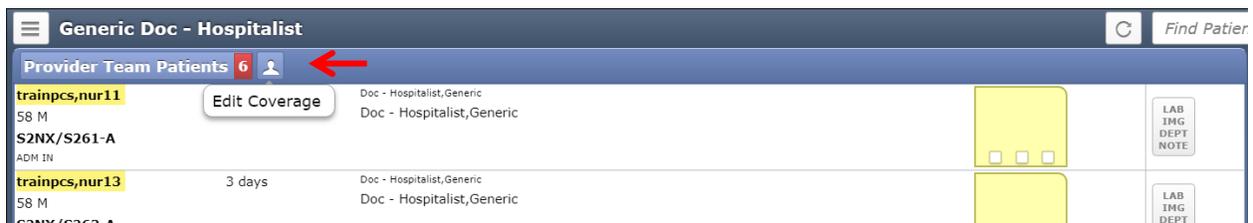

**\*\*NOTE: Only one patient can be assigned at a time. Deselect the last patient moved when returning to your Rounds List before choosing another patient.**

## Selecting Team List to view

Click on 'Round Patients' list, select new list: 'Provider Team Patients' to see patients for the team you will be 'covering' for.

Click on Silhouette icon, edit coverage.

# Creating Hospitalist Teams Patient Lists

Click on 'Provider Teams', choose team you will cover for; save.

The screenshot shows the 'Build Coverage' window for a 'Generic Doc - Hospitalist'. On the left, a list of providers is visible, including trainpcs,nur11, trainpcs,nur13, Trainpcs,Nur14, and TESTPAR,MF. The 'Build Coverage' panel on the right has a 'Provider Teams' section expanded, showing 'Hospitalist Team A' and 'Hospitalist Team B'. A red arrow points to 'Hospitalist Team B'.

***\*\*When you are on the list 'Provider Team Patients', you will be viewing patients according to how you have the coverage set. This will not affect your 'Rounds Patients' list, which should be set to cover for the entire hospitalist group as before.***

## Reassigning Patient to a Different Team:

Select Patient, click on 'hamburger icon', choose 'Modify Provider Team'.

The screenshot shows the patient list for 'Sahil Uttarwar, MD'. A red arrow points to the hamburger icon, and another red arrow points to the 'Modify Provider Team' option in the dropdown menu. The patient list shows three patients with their respective provider teams and coverage dates.
