EBSCO EVIDENCE-BASED METHODOLOGY

1 **Identify** the Evidence

2 **Select** the Best

3 **Critically** Appraise

4 **Objectively** Report

5 **Synthesize** the Evidence

6 **Report** Conclusions and Make Recommendations

7 **Adjust** Conclusions When New Evidence is Published

WHAT IS *DYNAMIC HEALTH*?

- ❖ Comprehensive evidence-based nursing & allied health information
- ❖ Designed to provide actionable clinical information in the correct context of a care provider's workflow
- ❖ Focused on enhancing learning & development and point-of-care decision making

WHY *DYNAMIC HEALTH*?

Highly curated, current and concise evidence-based content written by experts

- Using CINAHL, Mosby, Lippincott Williams & Wilkins, American Nursing Association, American Nurses Credentialing Center and hundreds of other resources

Dynamic Health provides the quickest “time to answer” for information on skills

The right information for critical thinking and action

Images, videos and drug content, selected and created to address the needs of the busy clinician

KEY SKILL AREAS

Nursing Skills

Transcultural Care

Patient Instruction

Allied Health Skills

NURSING SKILLS

Provides the foundation to help nurses develop critical thinking and communication skills.

- Helps nurses master skills and best practices
- Step-by-step instructions for performing a skill
 - Information includes purpose, desired outcome, supplies and evidence for each skill
- Videos and images offer quicker answers and deeper understanding
- Comprehensive content scope ensures safe and effective care

TRANSCULTURAL CARE SKILLS

Provides information on how to treat patients from diverse heritages and cultures

Improves patient outcomes through a better understanding of cultural-specific care needs

Increases patient satisfaction

Growing scope of cultural care coverage

Most countries around the world are becoming melting pots of people from many different cultures and backgrounds. Because of this, it is critical that care providers are well versed in providing culturally competent care.

Transcultural care is an area where our competition lacks content and expertise.

PATIENT TRAINING SKILLS

Patient training skills are intended to help your nurses better communicate with and educate patients, making them more informed and engaged and thus more satisfied.

Satisfied patients = Better HCAHPS Scores (Hospital Consumer Assessment of Healthcare Providers and Systems)

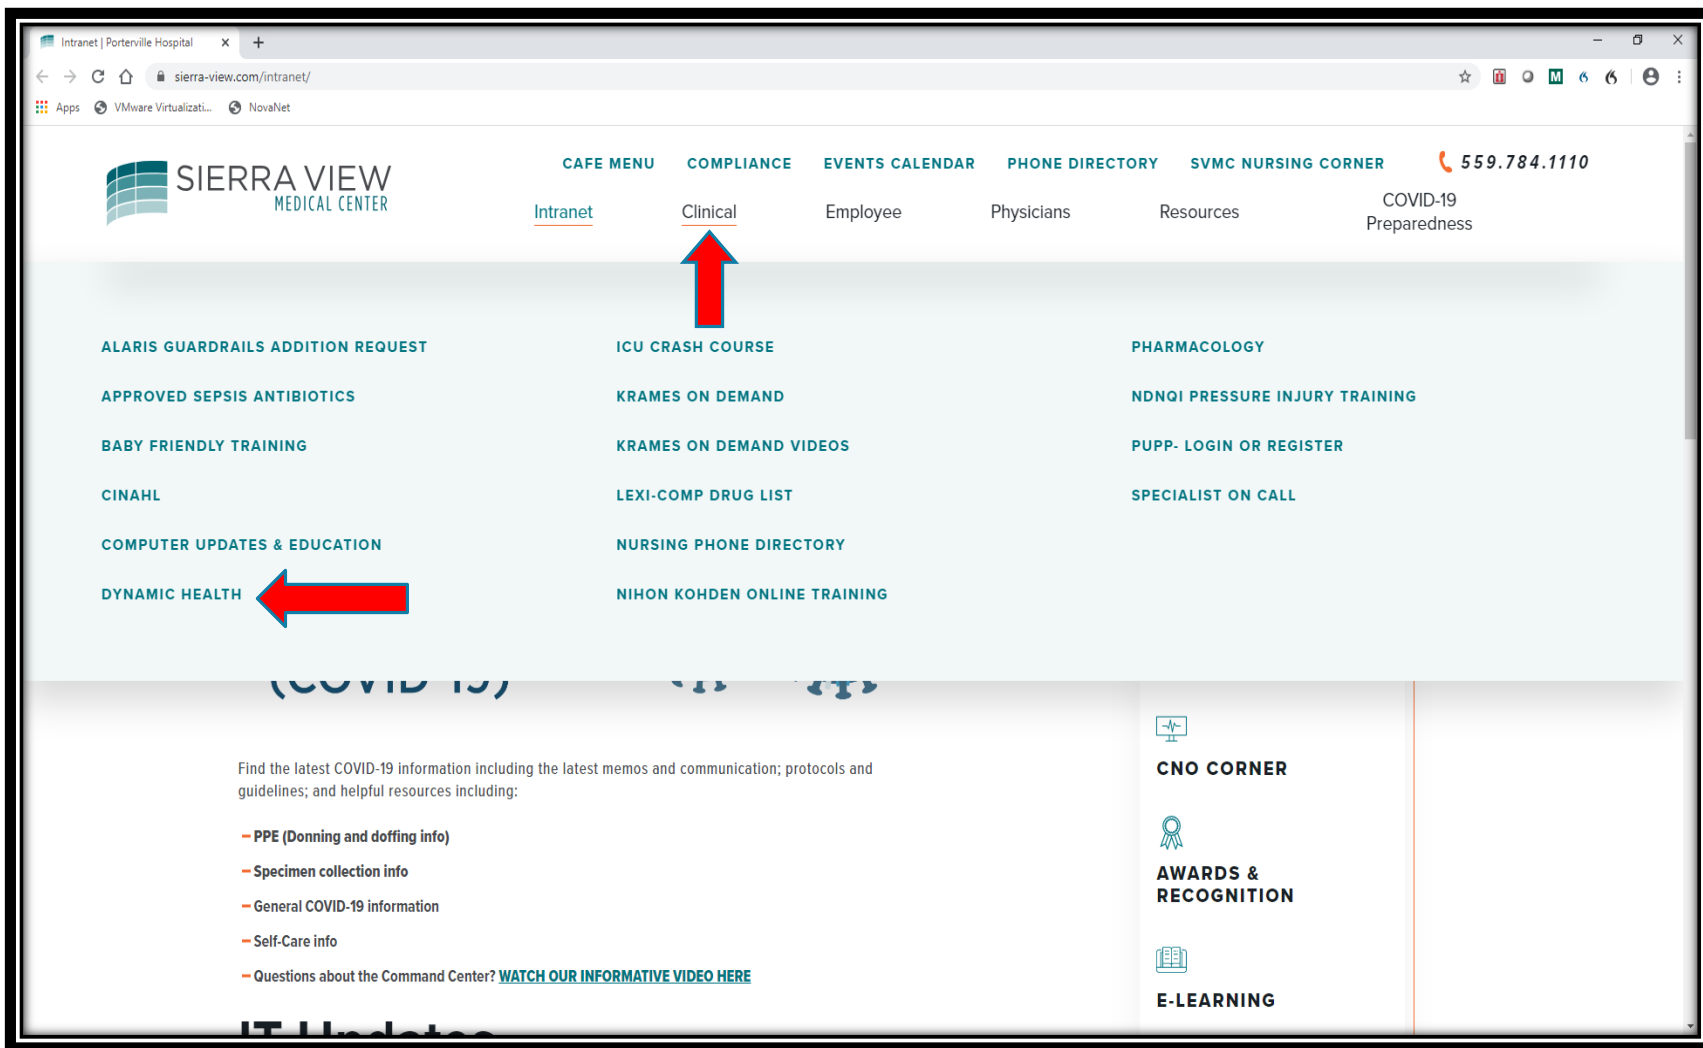

ALLIED HEALTH

Dynamic Health provides robust skills coverage for the core allied health specialties.

- Dietetics
- Occupational Therapy
- Physical Therapy
- Respiratory Therapy
- Social Work
- Speech Language Pathology

Others will tell you that they provide allied health coverage, but what they really offer is limited physical therapy and respiratory therapy coverage.

Employee Intranet page > Clinical > Dynamic Health

The screenshot shows a web browser window with the URL dynahealth.com. The page header includes the EBSCOHealth logo and the DynamicHealth™ logo. A navigation menu contains links for Home, Nursing Skills, Allied Health Skills, Transcultural Care Skills, and Patient Instruction Skills. The main content area features a teal background with medical icons and a central search box. A red arrow points to the search box, which contains the text "foley". A dropdown menu is open below the search box, displaying a list of search results under the heading "GO TO". The results include: "Foley Catheter Insertion in an Adult with Female Genitalia", "Foley Catheter Insertion in an Adult with Male Genitalia", "Foley Catheter Education for Home", and "Foley Catheter Insertion in a Male Newborn". Below this list is a "SEARCH FOR" section with the text "foley" and a list of related terms: "foley catheter care", "foley catheter", and "foley care". At the bottom of the search box, there is a "All Categories" link. The page also includes a "NURSING" sidebar, a "Feedback" button, and a section for "ALLIED HEALTH SKILLS" with a link to "Explore".

Type in Topic search word: example **FOLEY**
